SUPPLEMENT TO
REPORT NO.

THIS IS UNEVALUATED INFORMATION

50X1-HUM

1. Location: A cellulose and paper factory is located at Solikamsk (59-40N, 56-45E) on the east bank of the river Kama, about 1 km west or northwest of Solikamsk railway station (No. 1. on attached sketch No. 1).
2. Products: Products are as follows:
 - a. Cellulose plates of various sizes and thickness.
 - b. Paper for wrapping and newsprint.
3. Labor: In March 1950 there were about 1,200, including 100 German PW's. The rest were Russians, including some women.
4. Number of Shifts: Two shifts are worked, a morning shift of 9 hours and an afternoon shift of 8 hours, with about 600 workers per shift.
5. Source of Raw Materials: Raw materials are brought by truck monthly from the railway station.
6. Destination of Finished Products: The products are stored in the factory and later shipped by truck at varying intervals.
7. Security: The factory is surrounded by a high wooden fence. Outside the factory there are watch-towers, which were no longer occupied at the beginning of 1950. At the entrances work passes are checked by guards in civilian dress. The German PW's are guarded by Russian soldiers of older age groups.
8. General State of Factory: [] the factory is rather new, as the buildings look modern. All the buildings are of brick or masonry.
9. Transportation: There are no branch railway lines from the station. There are narrow-gauge tracks in the factory grounds on which trucks containing raw materials and finished products are moved by workers. [] the railway terminates at Solikamsk
